**DIPLOMA EXAMINATION IN ENGINEERING/TECHNOLOGY/
MANAGEMENT/COMMERCIAL PRACTICE — APRIL, 2018**

AUTOMOBILE TRANSMISSION

[Time : 3 hours

(Maximum marks : 100)

PART — A

(Maximum marks : 10)

- | | Marks |
|--|---------------------|
| I Answer all questions in one or two sentences. Each question carries 2 marks. | |
| 1. List two types of clutch operating mechanisms. | |
| 2. List two functions of transfer box in vehicles. | |
| 3. Define the term final drive. | |
| 4. Define the term Divided wheel. | |
| 5. List any two type rear axle support mechanisms. | $(5 \times 2 = 10)$ |

PART — B

(Maximum marks : 30)

- | | |
|---|---------------------|
| II Answer any five of the following questions. Each question carries 6 marks. | |
| 1. Explain the requirements of a good clutch unit in automobiles. | |
| 2. Explain the term Double Declutching and the procedure for shifting gears. | |
| 3. Discuss the constructional and operational details of Torque tube drive. | |
| 4. Differentiate between under inflation and over inflation in Tyres. | |
| 5. Write a short note on Fluid Flywheel with a sketch. | |
| 6. Illustrate the working principle of CVT with a line diagram. | |
| 7. List the factors affecting tyre performance. | $(5 \times 6 = 30)$ |

PART — C

(Maximum marks : 60)

(Answer one full question from each unit. Each full question carries 15 marks.)

UNIT — I

- III (a) Sketch and explain the working of diaphragm spring type single plate clutch. 7
 (b) Discuss the Hydraulic operation of clutch with a diagram. 8

OR

- IV (a) Discuss the constructional features of clutch plate with a sketch. 7
 (b) Explain with Sketch, the constructional details of a Semi centrifugal clutch. 8

UNIT — II

- V (a) With the aid of sketch explain the working of Freewheel unit. 7
 (b) Describe the working of gear selector mechanism with gear lever on the top of the transmission case. 8.

OR

- VI (a) Sketch and explain the working of Torque converter. 7
 (b) Label a 4 speed constant mesh gear box with 3rd gear in engaged position. 8

UNIT — III

- VII (a) Discuss the working of Hotchkiss drive drive. 7
 (b) Explain the working of a differential unit in a car. 8

OR

- VIII (a) Sketch and explain the working of Rzeppa joint. 7
 (b) Illustrate any two differential locking mechanisms. 8

UNIT — IV

- IX (a) Designate a wheel and a tyre, with examples and sketches. 7
 (b) Explain the classification of tyres based on carcass. 8

OR

- X (a) Sketch the cross-section of a tyre and describe its construction. 7
 (b) Explain the constructional details of alloy cast wheels and list its advantages. 8
